Custom
Systems designed around your energy consumption.

KWACHA SOLAR PACK

ZMK 21,552.50

1200W + 2 * 200W

WHAT CAN IT POWER?

The Kwacha Power Station is designed to support electrical appliances with a power rating of u p to 1200W.

To estimate how long your device will run:
Operating Time = 1200W ÷ AppliancePower Rating

This allows you to efficiently manage and plan you r power usage based on your device's energy consumption.
